ABSTRACT

The document contains a compilation of materials recommended for use in Project CHANGE (Concepts of Handicaps and Attitudes Need Guidance and Education), a comprehensive curriculum designed to improve children's attitudes toward the disabled. The major portion of the document consists of forms describing required and supplemental student materials arranged according to study units and grade level (K through 8). Study units include normal health, the senses, acceptance of individual differences, blindness, deafness, physical handicaps, acceptance of handicapped people, acceptance of self and others, physiology of the endocrine system, diabetes, physiology of the ear, physiology of the oral mechanism, speech impairments, physiology of the central nervous system, epilepsy, basic anatomy, cerebral function, mental retardation, learning disabilities, emotional problems, review of disabilities, and health careers. Each resource identification sheet includes information on material format, author, title, series, publisher and address, year, pages, time, cost, International Standard Book Number, grade level, unit, and call number. A brief description of the material is also provided. Types of materials include professional reference, books, films, filmstrips, tapes, records, cassettes, filmstrips with cassettes, complete kits, games, and charts. A final section contains resource identification sheets which provide information on about 30 professional books. (DB)

INTRODUCTION

The Media Assessment List was created as a comprehensive guide to materials which promote the philosophy of Project C.H.A.N.G.E. (Concepts of Handicaps and Attitudes Need Guidance and Education). The philosophy of the program is handicapped people have the right to be accepted as worthwhile individuals by their non-handicapped peers. The implementation of federal legislation, such as Public Law 94-142, (The Education For All Handicapped Children Act) has enforced the rights of the disabled. Federal dictates may be able to secure legislative rights but mandates can not assure societal acceptance of the handicapped.

If handicapped individuals are to be successfully integrated into our schools, community, and society they must first be viewed and accepted as worthwhile individuals with the same feelings and needs as non-handicapped individuals. They must be viewed as being capable of sharing with non-handicapped individuals those experiences which constitute life.

Societal attitudes are strongly influenced by the media. If materials which display positive attitudes towards the handicapped are introduced into the curricula of the non-handicapped student a positive attitude toward accepting the disabled should occur.

The premise for developing the Media Assessment List was that a list of materials from all media forms which focused on the development of positive attitudes toward the disabled did not exist. The criteria for material selection was:

1. Many forms of material were to be included: films, filmstrips, cassettes, records, books, games, charts and brochures.

2. All materials had to assist in the development of positive attitudes toward the handicapped

and 3. Materials had to be deemed exemplary in illustrating the objectives and concepts of the Project C.H.A.N.G.E. curricula.

Negative reactions towards people we perceive as different from ourselves are a common experience. We feel anxiety, fear, discomfort, or even hostility. Myths and stereotypes concerning these individuals are often incorporated into our value system. However, people do have the ability to change.

Attitudes are influenced by a variety of situational contacts with our family, society and media. Thus, it is possible for our attitudes to change or modify as a result of our experiences. The goal of Project C.H.A.N.G.E. is to influence and change those holding negative attitudes toward handicapped individuals. This is done by giving children a chance to acquire knowledge about handicapped individuals and their handicapping conditions. Knowledge will help to alleviate the common feelings of anxiety, fear, discomfort or hostility which non-handicapped individuals often experience when encountering a handicapped individual. Opportunity is provided for positive learning experiences about handicapped people which initiates a giant step towards acceptance.

OVERVIEW OF THE MEDIA ASSESSMENT LIST

FORMAT OF THE MEDIA ASSESSMENT LIST

The Media Assessment List is a compilation of materials recommended for use in the program. This listing is divided into three major sections:

1. Student Materials - required and supplemental materials arranged according to units and grade level
2. Supplemental Films - films which may be rented or purchased and used at various grade levels or in the Teacher Training Program

and 3. Professional Books - recommended texts for further information on disabilities.

Each book, film, filmstrip, etc. is listed separately on a Resource Identification Sheet. All materials listed have been previewed by the Project C.H.A.N.G.E. Producer Staff and are considered exemplary in illustrating the concepts and objectives of the program.

Resource Identification Sheets with a green dot in the upper right hand corner describe material required for implementation of the program. All other Resource Identification Sheets describe supplementary material for the program. The Project C.H.A.N.G.E. Producer provides only required program material.

Each Resource Identification Sheet has 4 sections. These are:

1. Resource Area
2. Identifying Data
3. Description of Materials
4. Material Assessment

The Resource Area section specifies the type of material listed with a circle around the format (e.g., book, cassette, game, etc.) The Identifying Data section lists information necessary for purchasing and processing the material. The Description of Materials section gives a brief annotation of the material, and the Material Assessment Section is used for inventory and acquisition of necessary program materials.

PROCEDURES FOR THE MEDIA ASSESSMENT LIST

The Media Assessment List has a wide range of practical uses. The procedures for implementation are discussed in relationship to the following areas:

    1. Inventory of Needs
    2. Material Implementation
    3. Year End Inventory
    4. Supplemental Films
and 5. Professional Books

INVENTORY OF NEEDS

The Material Assessment section is divided into two areas: Adopter Stock and Producer Order Information. Adopter Stock refers to the material in the library of the school which is purchasing the program (your district). Each item which is required (green dot upper right corner) is to be checked against the shelf list. Indicate responses in the appropriate column (have #, don't have). If you have the material, check the have column and then indicate the quantity in the # column. If the material is not available in the learning center (library), check the Don't Have column.

After all required materials have been inventoried, the Resource Identification Sheets are to be returned to Project C.H.A.N.G.E. office. The Producer Order Information is for the project office. These columns are for purchasing and processing. Ordering, processing and packaging is done by the Producer School District. Materials are packaged by grade level.

MATERIAL IMPLEMENTATION

Materials are packaged by grade level with a sign out card. A listing of the contents is on the front of the box. Each item in the box is labeled with the unit title and grade level. These materials should be housed in the learning center.

The teacher checks the material box (for the appropriate grade level) out of the learning center by signing the sign out card located on the top of the material box. After each lesson the teacher should place the materials used back in the box. The material box should then be returned to the learning center so it is accessible to other teachers at this grade. Contents of the material boxes should be checked upon return to the learning center.

YEAR END INVENTORY

The contents of the material box should be checked against the listing on the front of the box. Any item which has to be replaced will be done at the expense of the local school district and in conjunction with district policies.

The Supplemental Films which are listed may be rented or purchased for use in either the teacher training or student program. Many of the films listed are available through area film cooperatives or through the agencies which are listed in the Resource File.

When Professional Books are purchased, they should be housed in the learning center and be accessible to the teachers. The Media Assessment List should also be available to the teachers as the annotations under the Description of Materials will save previewing time.

The Media Assessment List is a valuable tool in future ordering. Additional program materials can be purchased through Title IV-B or other monies which may be available. If the Media Assessment List is used when purchasing supplemental Materials, lesson plans are available from the Project C.H.A.N.G.E. Producer District. This book was designed as a directory of materials which will assist in the successful implementation of Project C.H.A.N.G.E. with your teachers and students.

DESCRIPTION OF MATERIALS:

The Queendom of Lazybones had a horrible smell which was caused by a cloud of dirt. Everyone was leaving the queendom because the queen was so lazy that she would not bathe. Seven loyal subjects venture forth to the castle to confront the queens' problems. After looking in a mirror at herself, the queens' subjects cleansed her. Shortly afterward, the entire queendom was cleaned and people returned.

Dia

DESCRIPTION OF MATERIALS:

Diana had to have a leg amputated because of a cancerous tumor. Within days after the operation, physical therapists had her walking around with an artifical leg and crutches. Having gone through a period of feeling angry, Diana now finds it hard to remember how she used to walk. She's adapted quickly to her condition and feels that it bothers other people more than it does her. An active skier and equestrian, Diana remembers how she had to convince her mother to let her return to school.

ABOUT THE STAFF

STAFF:

Director	Donald Martin
Coordinator	Sherry Smith
Assistant Coordinator	Alan Balter
Medical Consultant	LaVerne Galzin
Media Consultant	Cynthia Foulkes
Curriculum Coordinator	Karen Harper
Curriculum Advisor	Kathleen Delaney
Curriculum Advisor	Robert Honkisz
Graphic Artist	Karen Madden
Evaluation Consultant	A. Edward Ahr.

Donald Martin, Project Director, holds B.A. and M.A.T. degrees from Harding College in Arkansas. He has worked as Assistant Principal at the Junior High School level, Director of a Demonstration Center for Gifted Children, and as Director of Federal Programs. As Program Director for Project C.H.A.N.G.E., he is responsible for the overall administration of the project.

Sherry Smith, Project Coordinator, has the B.A. from College of St. Francis in Illinois and M.S. from Chicago State University. Her previous experience includes classroom teaching and speech pathology at the elementary level. As Coordinator of Project C.H.A.N.G.E., she is responsible for the day-to-day operation of the program including grant writing, curriculum planning, and design of assessment instruments.

Alan Balter, Assistant Project Coordinator, has B.S., M.S., and Ph.D. degrees from the University of Illinois. He has worked as a teacher of retarded children, researcher, and university professor. As Assistant Coordinator, he helps with the daily functioning of the program and project dissemination.

LaVerne Galzin, Medical Consultant for the project, is a registered nurse who also holds the B.S. degree. She has wide experience working as a hospital nurse, public health nurse as well as a school nurse. In her role as Medical Consultant she explains nursing and medical information and strategies to program staff and is the program laisson to the medical profession.

Cynthia Foulkes, Media Consultant for the project, holds the B.S. in Education from Illinois State University and the M.S. in Education from Chicago State University. Her experience includes working as a School District Librarian and Director of a Learning Resource Center. She is responsible for ordering and processing all program materials as well as assisting program staff plan and execute audiovisual presentations.

Karen Harper, Curriculum Coordinator has the M.A, degree in Learning Disabilities and has many years of teaching experience in special education. She has developed the Kindergarten and Primary grades curriculum and supervised curriculum development at other levels.

Kathleen Delaney, Curriculum Advisor, has a B.A. degree from St. Xavier College in Illinois. She has worked as a teacher's aide in Project Head Start and as a teacher in the elementary grades. Her major responsibilities have been writing the project curriculum and lesson plans for grades 4-6.

Robert Honkisz, Curriculum Advisor, has the B.S. degree from the University of Illinois. He has worked as a physical education teacher in the elementary grades. His primary responsibilities have been writing project curriculum and lesson plans for grades 7-8.

Karen Madden, Graphic Artist, holds the B.S. degree from Northern Illinois University and the M.S. from Illinois Institute of Technology. She works as an Art Teacher for children between Kindergarten and 8th grade. Her major responsibility for the project involves producing original artwork for program materials.

A.Edward Ahr, Evaluation Consultant, has the B.S. and M.S. degrees from the University of New Mexico and the Ed.D. degree from Loyola University in Chicago. His work experience includes classroom teaching, school psychology, school administration and university teaching. His project responsibilities involve designing assessment techniques, statistical analysis of data and program evaluation.
